LIST OF SPARES

Spares and appointments must be carried on each vehicle during a marathon. One penalty point will be assessed for each item omitted. Complete omission of spares will receive 20 penalty points. Spares must be checked prior to the start of the marathon. To insure that each vehicle actually carries the required spares, provision for random recheck at either the rest stop or immediately following the drive may made (if explained in the prize list/Omnibus). Article 65.
