

## ADS Centennial Club Application

The American Driving Society, Inc. (ADS) Centennial Club recognizes carriage drivers and their one equine partner (horse, pony, miniature horse, donkey or mule) whose combined ages total 100 years or more. You may drive a multiple turnout but the age of only one animal may be combined with your age to meet or exceed 100 (Equine attains another year of age on each January 1st, no matter when foaled). Equine(s) and driver perform a Dressage test of any level at a show (schooling or recognized) or event, and are to be scored by an ADS Judge.

The application should be completed and sent at least 30 days prior to the drive. The ADS will send a beautiful commemorative ribbon to the applicant, who will bring it to the event for presentation. Applicants must seek approval and make arrangements with event management in advance of the event. Any event fees associated with this are the responsibility of the driver.

The Centennial Club was based on The Dressage Foundation Century Club, which started in 1996, as a way to honor, encourage and reward our older senior drivers. The driver need not attain a specific test score, it is important to show that whip and equine work well together. While we stress the serious nature of driving a test, we want all Centennial Club members to have fun!

While this club has no dues, no meetings and no agenda, except to enjoy the occasion, please keep in contact with the ADS and with each other by email and phone. Teams will be honored on the ADS website and in an annual article in *The Whip* (**to be included in *The Whip* and on the website, email a high-resolution photo of your induction to the club and one paragraph about the driver and equine to [info@americandrivingsociety.org](mailto:info@americandrivingsociety.org) at the conclusion of the event**).

Open to North American ADS Members only. There are no fees associated with this application.
